Project Information

Project Number: 2893632

Drawing Numbers: 7887-D, sheets 1-11

Location of the Work: United States Coast Guard Old Group Cape Hatteras Buxton, North Carolina

Estimated Cost Range: Between \$1,000,000 and \$5,000,000.00

Description of the Work: Work of the Project includes all materials, labor, equipment, services, and all operations necessary, but are not limited to:

- Install appropriate site control and erosion and sedimentation control devices.
- Remove salvageable, recyclable and hazardous materials. Recycle, salvage and/or dispose of these items in accordance with all Federal, State and Local regulations.
- Demolish and/or dismantle existing structures in their entirety, including above-ground buildings, pool, subsurface utility vaults, 100-foot tower and other items. Dispose of debris at an off-site location in accordance with all Federal, State and Local regulations.
- Cut underground utilities five feet from building footprint.
- Coordinate disconnection and removal of transformers and other associated electrical transmission equipment adjacent to Building 018 with local electric utility.
- Replace existing wooden fence surrounding high frequency antenna with 6-foot high wooden, vertical pickets and a lockable, swing gate for access.
- Protect and maintain integrity of existing telephone communication line servicing high frequency antenna and hut, gazebo, National Oceanic and Atmospheric Administration hut and antennae.
- Provide earthwork as necessary to fill voids left by building demolition, vault removal, swimming pool removal, etc. to allow for future building/landscaping activities.
- Revegetate disturbed areas to match existing conditions.

Period of Performance: The period of performance for this project is 180 calendar days after Notice to Proceed is issued.

Wage Determination: NC120065 dated 01/06/2012

Proposal Acceptance Period: 60 calendar days
